KampüsAjanda – User Flow

Boxes = Figma frames · ◇ = decision · text on an arrow = the button the user taps

Bottom tab bar on 06, 08 and 09 switches between them. "←" / "X" on every screen goes back to the previous screen.
Filters (For You · All · This week), Upcoming/Past tabs and the reminder toggle stay on the same screen. Outdoor events use the same detail screen (07 / 07.1) with an extra weather row.
